# MAHEK ANIL HIRPARA

## Computer Science Student

Enthusiastic first-year B.Tech student passionate about coding, web development, robotics, machine learning, and embedded systems. Eager to learn, contribute to innovative projects, and apply classroom knowledge to real-world challenges.

## Contact

## Education

**Bachelor of Technology (B.Tech) in Computer Engineering**

Charotar University of Science and Technology (CHARUSAT), 2025 - Present

**Higher Secondary Education (Class XII)**

Modi CBSE School, 2025 | Percentage: 91.40%

**Secondary Education (Class X)**

Podar International School, 2023 | Percentage: 93.40%

## Technical Skills

**Programming**: C, Python (basic),HTML

**Tools/Software**: Code Blocks, VS Code, Arduino IDE

**Domains of Interest**: Robotics, IoT, AI & ML, Embedded Systems

## Experience

**Line Follower Robot** – Designed a simple autonomous robot using IR sensors and Arduino.

**Smart Autonomous BinBot:**
Designed an intelligent robot capable of autonomously collecting and disposing of waste using sensors and motor control.

**Surveillance Robot:**
Developing a mobile robot for remote monitoring and live video surveillance using wireless camera and sensor integration.

Participated in **MSBC Hackathon**, showcasing innovative problem-solving and teamwork skills.

Selected for **Smart India Hackathon (SIH)** at the college level

**Research on YOLO-Based Real-Time Object Detection**: Presented a research paper on the implementation of the YOLO model for real-time object detection using a depth camera and rover-based dataset collected on campus.

**Conducted a workshop** on **Sensors** in Robotics: Explained the working principles and applications of various sensors (IR, ultrasonic sensors) used in robotic systems.

**AgroTech Startup – "Farm to Fresh" Concept:**
Presented an innovative startup idea promoting direct farm-to-consumer connections using technology to ensure fresh produce and fair pricing for farmers.

**Ideathon Presentation:**
Selected to present the Smart Autonomous BinBot project at the university-level Ideathon, demonstrating innovative waste management solutions using robotics and sensors.

### Soft Skills

- Teamwork
- Leadership
- Problem Solving
- Public speaking

### Certifications

Arduino Step by Step: Getting Started – Udemy (Completed 2025)
